

Dear Co-laborer for God,

The *Thunder* Lesson Helps are designed for the half hour discussion time following the *Thunder in the Holy Land* video. These lessons are constructed in a way that encourages participants to engage at a heart level with the truths they have just learned.

Please note that these lessons are periodically updated, so we encourage you to download the most current versions from our website, www.QLP.tv under the “**Resources**” menu. You can download individual lessons or the whole set. These are completely free so download them as often as you like.

There are other study leader tools also available at this link which are also free for downloading such as a follow-up sheet to help group leaders know where participants are in the studies etc. and appointment cards to easily remind study participants of their next Bible study date.

There is also a training video on how to optimize your use of the *Thunder* lessons.

Feel free to contact us at any time if you have questions or would like to schedule a *Thunder* training event for your church.

Together in His service,

A handwritten signature in cursive script that reads "Charles A. Byrd".

Charles A Byrd

President
